

Sign Post

The multi-purpose Sign Post is designed to support operational requirements by drawing attention to advisory, warning and instructional information within a facility. Highly visible both to pedestrians and vehicle traffic, the Sign Post can be customised with a choice of universally recognised health and safety, directional and hygiene signage.

The Sign Post is robust and easy to install. It is ideal for defining pedestrian and traffic routes, as well as for directing personnel and visitors to essential facilities such as hand-wash stations.

Ultimate strength polymer created from an exclusive composition of the most sophisticated polyolefins and rubber additives, expertly blended for unequalled strength and flexibility.

Self-coloured and UV-stabilised for long-lasting aesthetics with no repainting required.

Ultra-low maintenance material is chemical and water resistant, non-corrosive and non-scratch so no cracking, rusting, flaking or corrosion.

H&S compliance is emphasised ensuring workers and visitors are aware of safety procedures in the required locations.

Compatible sign inserts are available separately to suit your needs.

Technical Information

Material Properties	MEMAPLEX™
Temperature Range	-10°C to 50°C
Ignition Temperature	370°C to 390°C
Flash Point	350°C to 370°C
Toxicity	Not Hazardous
Chemical Resistance	Excellent - ISO/TR 10358
Weathering Stability (Grey Scale)	5/5*
Light Stability (Blue Wool Scale)	7/8**
Static Rating (Surface Resistivity)	1015 - 1016 Ω
